Summary: Hey, I'm writing a fic and I just need info, so read the paragraph that I wrote and if you know the info, please review! It would mean so much! Arigato!

Information please!

Okay, so I'm writing a xover fic for Rise and Dragons, but I don't know the state that Jamie lives in (either it doesn't mention it in the movie, or I wasn't paying attention when they did, and I'm too lazy to actually look myself). I think it's New York, but I could be wrong so if anyone knows please review, cause I don't know and there is this one specific line I need it for.

X0X0, Zero

End
file.
